Description

This is a practical, hands-on course designed to provide pharmaceutical, biopharmaceutical, biologics and medical device professionals with the information and tools they require to prepare for and manage an FDA inspection efficiently, effectively and successfully. Many regulated companies preparing for FDA inspections are not prepared and the outcome can be negative as we see all the time with enforcement actions.

Areas Covered

- FDA's Inspectional Authority and History
- FDA Inspection Program Overview
- Key factors for a successful FDA inspection
- Quality System Readiness
- Organization Readiness

Who will Benefit

www.BostonEventsList.com

- Executive Management
- Regulatory Affairs Management
- Regulatory Affairs Specialist
- Auditors
- QC/QC
- Compliance Officer

Learning Objectives

This seminar will provide an overview and in-depth snapshot of the entire process for preparing for and managing and FDA inspection and external regulatory inspections. Employees who will benefit include all levels of management and departmental representatives from key functional areas and those who desire a better understanding or a "refresh" overview of the FDA inspection process from preparing for the inspections, during the inspections and post-inspection responsibilities.
