Description

The Indian Pharma industry has been under scrutiny over the last few years and has faced audits across the year leading to alarming warning letters being received and facing repetitive audits. This has not only impacted reputation of the companies, but it has become imperative for all pharma companies to bring 24/7 quality culture to become all time audit ready.

ABOUT THE WORKSHOP

This seminar will provide an overview and in-depth snapshot of the entire process for preparing for and managing and FDA inspection and external regulatory inspections. Employees who will benefit include all levels of management and departmental representatives from key functional areas and those who desire a better understanding or a "refresh" overview of the FDA inspection process from preparing for the inspections, during the inspections and post-inspection responsibilities.
