AGC PARTNERS' 2018 BOSTON TECHNOLOGY GROWTH CONFERENCE

Thursday October 25th

AGC's 14th Annual Boston Technology Growth Conference is scheduled to be held on Thursday, October 25th. Our conferences have become premier showcases for fast growing, predominantly private technology companies. Last year's event had a record turnout of 190 companies and over 1,700 one-on-one meetings between CEOs and the 200+ strategic buyers, PE and VC professionals also in attendance. These one-on-one meetings are the core of our conference series. The day also featured high-caliber panel discussions with renowned tech industry experts, and a keynote address by Peter Barris, Chairman of New Enterprise Associates.
