Venue :

Location : Westin Waterfront,
Boston, MA, US, ZIP: 10001

Boston Lights Exposition and Conference

A biannual trade show and conference held to provide architects, engineers, interior designers, and lighting designers with local access and an approachable format to the latest and greatest in new lighting fixtures and controls. The venue is always beautiful, and the 8-foot tabletop format insures that manufacturers only exhibit the newest and best products.

Boston Lights Exposition and Conference was first held in October of 2010 with just 70 manufacturers exhibiting. In 2018 we will have over 150 manufacturers exhibiting and more than double the number of attendees.

Alongside the trade show we also offer an outstanding series of accredited seminars presented by luminaries of our industry from around the world
