Why Attend

CFO Publishing has been holding the CFO Rising Summit for over **twenty years**. We use our resources and extensive networks to deliver the most influential CFOs, who demonstrate their expertise across all the challenges facing finance professionals.

- Discover how the changing role of the CFO will see adaptations into one that requires the analyzation of big data streams, the embrace of technology, and continued agility.
- Understand the necessity of rolling financial forecasts, and why organizations are mandating budgeting and forecasting agility
- Automation as a business driver: Learn how to leverage new digital tools for workforce productivity gains, streamlining data collection, and inventory and sales efficiency processes.
- Explore how CFOs are taking on different seats at the management table, and being tasked with analyzing non-financial data to gain insights for informed decision making and organizational strategy-setting
