**Ticket Price: One Dial-in One Attendee Price: \$150.00**

Overview:

The premise behind RBQM is that monitoring quality can be improved by leveraging existing data intelligence. This, in turn, calls for more robust quality assurance (QA) systems focused and efficient resource utilization and allocation at the clinical site level.

Why should you Attend:

Practical aspects of developing relevant Key Performance and Quality Indicators (KP-QIs) for Risk-Based Quality Management will be discussed.

Areas Covered in the Session:

- Identify and manage risks of clinical trials
- Perform Cause-Effect Analysis for identified risks and develop mitigation strategy
- Review recent noncompliance trends and regulatory focus for Sites, Sponsors, and IRBs
- Develop effective Corrective Action Preventive Action (CAPA) Plans

Who Will Benefit:

- Clinical Quality Assurance Auditors
- Clinical Quality and Compliance Professionals
- Clinical Research Associates
- Project Managers
