Overview:

You'll learn about the various computer system validation deliverables and how to document them through the entire process. You will learn about what must be done to ensure the system remains in a validated state.

Why should you Attend:

This webinar will help you understand in detail Computer System Validation (CSV) and how to apply the System Development Life Cycle (SDLC) Methodology when validating computer systems subject to FDA regulations.

Areas Covered in the Session:

- Installation Qualification
- Operational Qualification
- Performance Qualification
- Policies and Procedures
- Training
- Organizational Change Management

Who Will Benefit:

- Clinical Data Managers and Scientists
- Compliance Managers and Auditors

Lab Managers and Analysts
Computer System Validation Specialists
GMP Training Specialists

Speaker Profile:

Carolyn (McKillop) Troiano has more than 35 years of experience in the tobacco, pharmaceutical, medical device and other FDA-regulated industries. She has worked directly, or on a consulting basis, for many of the larger pharmaceutical and tobacco companies in the US and Europe, developing and executing compliance strategies and programs.

Event Fee: One Dial-in One Attendee Price: US\$150.00
