Boston,, MA , US, ZIP: 02110

Primary Care Conference with Workshops

- **Conference Fees**

November 9: Workshops

November 10-12: Primary Care Conference

- “As a newer nurse practitioner, I found the NPACE conference extremely educational. I feel more confident in how I will practice in the future, received information on many tools that will enhance my practice, and learned so much. The speakers are extremely knowledgeable and make the topics interesting and even fun. I would definitely recommend you attend, and will be back next year!” *C.T., North Vernon, Indiana*
- “I thoroughly enjoyed the conference. The key to a good seminar, in my opinion, is to have just a handful of very knowledgeable presenters who can keep the attendees in rapt attention as the latest medical updates are presented. You guys hit a home run!” *J.P., Miami Lakes, Florida*
- “I have attended several NPACE conferences over the years and they have always exceeded my expectations in material presented, organization and

professionalism.”*F.H., Carol Stream, Illinois*

- “I had never attended an NPACE conference before but found the speakers to be exceptional and most informative! They presented information that was very comprehensive and full of clinical pearls that I can use in my practice. This was the best conference I have ever been to. I will definitely recommend NPACE to other colleagues. Thanks again!”*K.R., Salem, New Hampshire*
- “Excellent content, speakers and pace of delivery. Never a dull moment, took away a huge amount of information directly applicable to practice.”*P.H., Enfield, Connecticut*
- “I have rarely attended a conference like this one where I felt like I couldn’t miss a session.”*S.G, Newark, Delaware*
- “I could not have asked for a better experience. The information presented is incredibly pertinent to my daily work, and I can’t wait to put it into practice.”*M.G., Cincinnati, Ohio*
