"ORAL MEDICINE FOR THE GENERAL PRACTITIONER"â€ William (Bill) M. Goebel, DDS MSD

Course Objectives: 4 CE

Dental health care professionals completing this C. E. course will be able to manage dental patients on a variety of new pharmacologic agents. In addition the participants will be able to make appropriate decisions about how to incorporate new cancer diagnostic aids, adjuncts and oral screening tests in a dental practice. The pathology review will enable the practitioner to provide a realistic level of diagnostic competence, prognosis and management of frequently seen oral conditions.

"DENTAL IMPLANTS IN THE ESTHETIC ZONE"â€ Robert Blackwell, DDS

Course Objectives: 4 CE

- Review some of the fundamentals of tissue sculpting using provisional restorations.
- Review the concept of immediate non-occlusal loading.
- Develop an understanding of how abutment selection can influence esthetic outcome.

Conference Sessions generally take place on days at sea (as itinerary allows), giving you plenty of time to enjoy your meals, evenings and ports of call with your companion, family and friends.
