The Connected Healthcare World Congress (CHealthWorld)

CHealthWorld has been **designed by the industry for the industry** to generate significant business impact through transformational thinking.

How are we different?

Not technology for technology's sake...

CHealthWorld only showcase the science, technology, processes and individuals who have proven to generate real, patient-centric and cost-effective impact!

We offer executive leadership training, practical knowledge exchange and executive networking which inspires leaders to create significant business impact through open innovation and applied technology. Our event delivers a future-focused and unique platform based on the highest level of integrity. Every speaker, industry case study and start up featured passes through a rigorous vetting process led by our [Executive Advisory Board](#).
