

## 2nd Bacteriophage Therapy Summit 2020 - Boston, MA

---

**Date :** Aug 27, 2020 - 08:00 AM - Aug 28, 05:00 PM

**Event URL :** <http://www.BostonEventsList.com/events/2nd-bacteriophage-therapy-summit-2020>

**Organizer :** Hanson Wade

**Venue :** online

**Location :** Event,  
Boston, MA, US, ZIP: 02203  
Phone: +1 617 455 4188

---

**Ticket Price: Conference Only - Industry: USD 1749.00, Conference Only - Academic/Start-Up: USD 1249.00**

The graphic features a blue background with a subtle pattern of phages. At the top left, there is an illustration of three phages. To the right of this, the text 'BACTERIOPHAGE THERAPY SUMMIT' is written in large, white, sans-serif capital letters. Below this, a white text box contains the following text: 'Accelerate the Discovery & Translation of Bacteriophage Research into Targeted Therapeutics that Demonstrate Clinically Significant Results'. At the bottom of the graphic, there is a white rectangular button with the text 'Find Out More'. At the very bottom, on a dark blue background, the text 'August 27-28, 2020 | Digital Event' and the website 'www.bacteriophage-summit.com' are displayed in white.

As the scientific community search for alternatives to broad spectrum antibiotics, phage therapy

has re-emerged as a viable solution to tackle the global health challenge of anti-microbial resistance.

As such, the 2nd Bacteriophage Therapy Summit returns digitally as a dedicated platform for leaders in industry and academia to accelerate the discovery and translation of bacteriophage research into targeted therapeutics that demonstrate clinically significant results.

With a heavy translationally focused agenda including how to overcome bacterial resistance scaling-up manufacturing and showing clinical efficacy this is your opportunity to join your peers to strengthen your product development pipelines and forge collaborations to unlock the full potential of bacteriophage therapeutics.

View the full event guide for further details on speakers, content and how to join those who paving the way for bacteriophage-based therapeutics!
