## **3rd Annual Lifecycle Management for Combination Products**

The 3rd Lifecycle Management for Combination Products Summit is the only peer-led community that is bringing over 100+ senior leaders from drug-device teams including regulatory affairs, product development and quality together to share key opinions on how to maximize your combination products' lifespan and how to continue to deliver a quality drug-device product for your patients.

Join the community to explore and discuss:

How to handle and navigate the evolving regulatory landscape, especially EU MDR's commercial implications on combination products in Japan and APAC

[www.BostonEventsList.com](http://www.BostonEventsList.com)

Design control and quality – how to collaborate with multiple teams for full oversight of LCM

When should you start an LCM initiative? Challenges with drug-device products

Assessing next gen combination products opportunities to extend your product lifespan

Lifecycle management for drug-device combination products has stolen the spotlight amongst pharma, biotechs and device developers. That said, effectively integrating multiple project teams and defining a common LCM program can be challenging – but if you join us in June you will be given unparalleled access to key experts who can guide you on how to implement a robust LCM program to reap the significant benefits from the get-go.
