The global pre-filled syringes market was valued at \$4.9 billion in 2018 and with the rapid growth of the industry, is expected to exceed \$9.7 billion by 2025. With that in mind, for its 7th year running- the 2020 event will aim to focus on new trends on digital technology advancements,

human studies and innovative design and delivery systems within the prefilled syringe industry.

Themes for 2020:

Pre-Filled Syringes East Coast 2020 will be exploring themes of Container Closure Interaction and Formulation; On-body Injectors; Digital connectivity in the parenteral space; A regulatory outlook with industry and recognised body experts; Patient centricity and device development; Developments in device technology; Parenteral gene therapy and New for 2020: PFS Interactive Workshop Day.

This comprehensive overview will help attendees understand the changing global market and the challenges faced within the industry.

This two-day agenda offers you peer-to-peer networking with Global Product Managers, Senior PFS Engineers, Device Testing Managers, Heads of Late-Stage PFS Development and many more..

Key Reasons to Attend:

- EXPLORE the latest case studies parenteral drug delivery
- GAIN insights into the use of pre-filled syringes for gene therapy
- NETWORK with leading industry experts, key opinion leaders and regulatory body representatives
- ENGAGE in the key challenges and topics of the field in the interactive post-conference workshop day
